What?

are in the inside

We are thrilled to present our brand new logo for the International Conference of Sabaragamuwa University in Sri Lanka! Our logo is a stunning representation of our institution's commitment to excellence, knowledge, and growth.

At the heart of our logo is a breathtaking mountain range that signifies the power, stability, and resilience of Sabaragamuwa University. The mountain range is designed with various shapes, adding a geometric element that enhances its overall aesthetic appeal. This feature is symbolic of our university's diverse range of academic programs, research initiatives, and collaborations, all of which contribute to our reputation as a world-class institution of higher learning.

The two stars featured in our logo signify our mission to bring knowledge and innovation to the world. Our faculty members and researchers are dedicated to conducting groundbreaking research, producing exceptional graduates, and fostering innovative partnerships that will impact societies and the world at large.

We have incorporated nine colors in our logo, each of which represents a specific faculty within our institution. We also chose to use a multicolored palette to symbolize new beginnings, transformation, and adaptability to the ever-changing global landscape. Additionally, we used maroon as the base color, which represents our confidence and ambition as a university. The gold color is also featured in our logo, representing our aspiration for success, wealth, and prosperity.

Overall, our logo is a visual representation of Sabaragamuwa University's values and commitment to producing exceptional graduates who will go on to shape and impact the world. We are excited to showcase this new logo at the International Conference of Sabaragamuwa University and look forward to welcoming you to our world-class university.
